

# L-Series Ceiling Speaker - White

## Features

L Series ceilingspeakers let you deliver sound to every room in your home without sacrificing a single square inch of valuable wall space.

Installation is easy as 1-2-3: cut a single hole, feed the wires through to your receiver or amplifier, and simply drop the speaker in. Rotating cams secure the speakers safely with no extra assembly or mess. A round shape and flush design allows each L-611 to mimic the look of a recessed lighting fixture, providing the ultimate in stealth sound.

## What We Do

- + Design and Built for Corporate and Government
- + Consultation and shared Product Knowledge
- + Customised Programming

Dynamic Balance components and direct tweeters ensure spacious imaging with stunning clarity and well-balanced sound in any listening position, not just a small "sweet spot." Wide-dispersion design means you'll enjoy even coverage across small and large rooms alike.

The speakers use large, 6.5-inch cones for rich, full-bodied sound. Further, their Infinite Baffle tuning uses the virtual enclosure of ceiling space to enhance their bass response. L-Series for seamless, enveloping sound when used as part of a home theater.

### Product Features

- Pair of in-ceiling with a round shape and flush design to mimic the look of an unobtrusive recessed lighting fixture
- Equipped with one 6.5-inch dynamic -balance, polymer-composite cone with a rubber surround
- Frequency Response: 40Hz - 20kHz
- Equipped with one 0.75-inch dynamic -balance, metalized soft dome tweeter in ball-and-socket swivel mount
- Constructed of durable material

### Technical Details

Model: L-611  
 Color Name: White  
 Speaker Amplification Type: Passive  
 speakers\_maximum\_output\_power: 60 Watts  
 speakers\_rated\_output\_power: 30 Watts  
 speakers\_response\_bandwidth: 90 - 20000 Hz  
 Sensitivity (1W/1m) : 88dB  
 Speaker Connectivity: Wired  
 Dimension Diameter: 230 mm  
 Height: 90 mm  
 Mounting Hole (D): 200 mm  
 Weight: 1.3 kg  
 Warranty: 1 years warranty

Model: L-811  
 Color Name: White  
 Speaker Amplification Type: Passive  
 speakers\_maximum\_output\_power: 80 Watts  
 speakers\_rated\_output\_power: 40 Watts  
 speakers\_response\_bandwidth: 50 - 20000 Hz  
 Sensitivity (1W/1m) : 88dB  
 Speaker Connectivity: Wired  
 Dimension Diameter: 270 mm  
 Height: 105 mm  
 Mounting Hole (D): 240 mm  
 Weight: 1.8 kg  
 Warranty: 1 years warranty
